Hamel's Haunts II

Sunday June 17th, 3 & 6 hour options. $20 early entry ($25 on the day) **DUNEDIN**

Mixture of easy controls on marked and unmarked tracks with additional more difficult controls potentially requiring scrub and bush bashing. Bush, Tussocks, Pine Forest, Gorse, Gravel, Mud, Swamp something for all. Most of the navigation is pitched at entry level, with a couple of sections requiring more care and should fog/mist roll in then some of the nav will be at the more experienced end of the scale.

For those looking for training for The Spring Challenge, the majority of the course is at the level required for the MTB with one specific section pitched at the level required for the Trek (it is comparable to the Tapawera Spring Challenge).

For those wanting a brush up on Navigation for Heights of Winter this is two weeks prior.

More details later at:
