Heights of Winter "*Double Tops*"

12 and 6 hour Rogaine

Saturday 16th June 2007

Dear Team,
Thank you for your entry.

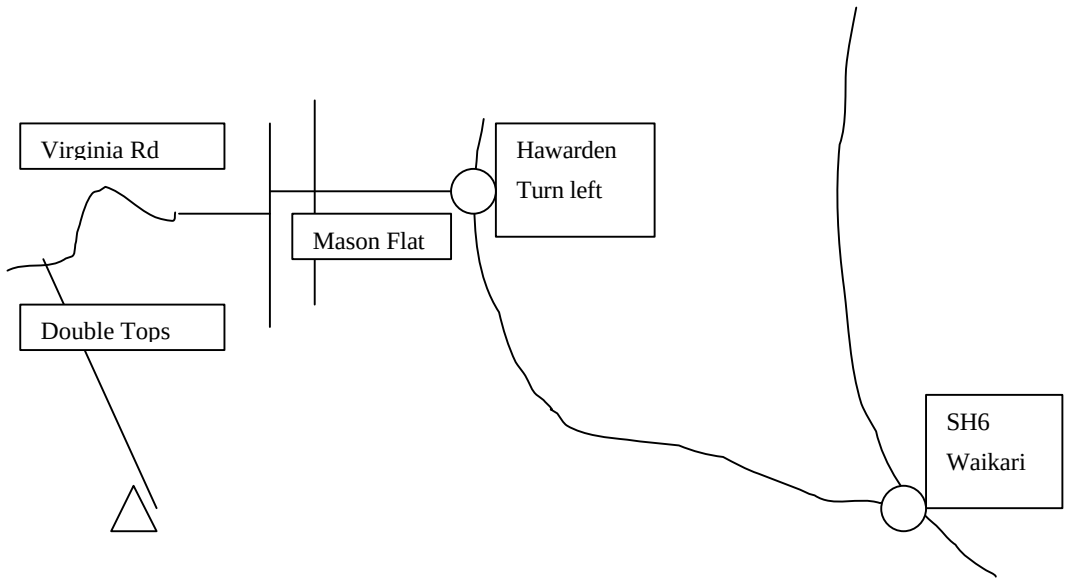

Your team number is:
Please remember it.

XX

As team contact person, please ensure all team members are familiar with all the information below and attached. This information is also accessible at: www.papo.org.nz. We hope you enjoy the event.

Getting to the event

The event start/registration is on the DOUBLE TOPS farm near Hawarden, 115 kms North of ChCh. Please allow a minimum of one and half hours from Chch to Double Tops.
Go north on SH 1 through Amberly and west onto SH 7 at Waipara, towards Waikari and Hanmer. Turn left at Waikari towards Hawarden, and left again at the small roundabout in Hawarden towards Masons Flat. Pass straight through Masons Flat and then left at the next road junction, travel south 500metres and then right into Virginia Road. Travel approximately 6 kilometers and a Rogaine sign will indicate to take a small road on the left. Travel straight along this small farm road and follow Rogaine signs to the start.

Basic Camping is available at the start on the Friday and Saturday nights. If camping, you will need to be totally self-sufficient including bringing your own water.

Twelve hour event

Registration

Registration starts at **7 am** when maps and electronic wrist-tags are issued. Ensure your team is together and that you have your **completed indemnity form** with you.

Each **team member** will receive a map and control descriptions (on reverse of map).

Each **team** will receive two NAV TAGs, a sealable plastic bag (to protect your **A3**-sized map) and an Intentions Map. The control locations are pre-marked on the map. We recommend you spend about an hour planning your route, which will save you time and energy later.

Intentions map

Please mark your intended route (with direction arrow) on the black and white map received when you register. The route you mark need not constrain your subsequent plans through the day, but it does provide backup information in the event of us having to call out SAR to look for you.

The intentions map must be handed in at registration before the start. You will not be permitted to start (and have your NAV TAGs activated) until you hand it in.

Briefing and Start

Briefing is at **8.45 am**.

Ensure that you register the electronic wrist-tag you have been given on one of the BRIEFING punches which will be available at this briefing. For details on using the Navlight Electronic Scoring System see below, page 7 of these notes.

The 12 hour will start at **9.00 am**.

Finish (12 hour)

The event will close at **9 pm sharp** at the START/FINISH. Aim to **finish by 9 pm; you will be penalised 10 points per minute late, but if you are more than 30 minutes late then all points will be lost.**

As soon as you finish, register your wrist-tag on any one of several FINISH Punches, assemble your team, and then present yourselves to the computer desk to have your wrist-tags removed and scored. Wait for an immediate printout of your score. If you have any disagreement with it, see the event organizer, NOT the scoring team. Scores will be published on www.papo.org.nz as soon as possible after the event.

Event chronology – 12 hour

7:00 am	**REGISTRATION OPENS**
	Route planning and preparation
8:45	Briefing
9.00	**START**
9.00 pm	**Finish**
from 8.00 pm	food available
asap after 9.30	Provisional results

Six hour event

Registration

Registration starts at **8:15 am** when maps and electronic wrist-tags are issued. Ensure your team is together and that you have your **completed indemnity form** with you.

Each **team member** will receive a map and control descriptions (on reverse of map).

Each **team** will receive two NAV TAGs, a sealable plastic bag (to protect your **A3**-sized map) and an Intentions Map. The control locations are pre-marked on the map. We recommend you spend about an hour planning your route, which will save you time and energy later.

Intentions map

Please mark your intended route (with direction arrow) on the black and white map received when you register. The route you mark need not constrain your subsequent plans through the day, but it does provide backup information in the event of us having to call out SAR to look for you.

The intentions map must be handed in at registration before the start. You will not be permitted to start (and have your NAV TAGs activated) until you hand it in.

Briefing and Start

Briefing is at **9.45 am**.

Ensure that you register the electronic wrist-tag you have been given on one of the BRIEFING punches which will be available at this briefing. For details on using the Navlight Electronic Scoring System see below, page 7 of these notes.

The 6 hour will start at **10.00 am**.

Finish (6 hour)

Your event finishes at **4 pm sharp** at the START/FINISH. Aim to **finish by 4 pm; you will be penalised 10 points per minute late, but if you are more than 30 minutes late then all points will be lost.**

Otherwise the procedure is the same as the 12-hour finish described above.

Event chronology – 6 hour

8:15 am	**REGISTRATION OPENS**
	Route planning and preparation
9:45	Briefing
10:00	**START**
4:00 pm	**Finish**
from 3:00 pm	light refreshment available
asap after 4.30	Provisional results

What to bring

Compulsory clothes and equipment per team member:

thermal top & trousers or waterproof over trousers.

rainproof coat	thermal hat and gloves
whistle, torch (head torch is best)	survival bag, sheet or pack liner
food, water bottle	pencil or fine spirit marker, **per team**
at least one compass, **per team**	first aid kit, **per team**

For the 6 hour event you will need one torch per team.

Organisers may check the above equipment. You **must** be suitably equipped to start.

We **strongly recommend** you also carry

second layer thermal top, gaiters,

a compass each, spare torch bulb, and a **watch**.

a cellphone, per team. See Safety Information (page 8) for further info on this.

Wear strong, supportive, grippy shoes or boots.

You may also need a range of marker pens, pencils and highlighters, pins and string, and ruler, for planning and measuring your route before you start. Navigation devices such as GPS or altimeter **not allowed**.

PLEASE BRING YOUR OWN EATING UTENSILS FOR THE POST-EVENT FOOD THAT WILL BE PROVIDED (PLATE, MUG, KNIFE, FORK AND SPOON)

Food and drink

Carry enough for a long day in the field. You may return to the Start at any time during the event to finish or rest, (***there will be hot drinks and soup available***). At the finish food will be available.

Water refill drops will be marked on the map (please conserve this water when filling bottles). We do not recommend drinking from the streams. Past experience has shown us that we cannot guarantee to keep up with the demands for water. We will do our best. We recommend you carry at least two litres. **We do advise that teams with water purifying equipment may have an advantage.**

What Not to bring

Absolutely NO DOGS (including inside cars)

Cancellation

This event will only be cancelled if conditions are extreme, to be notified at the start. **The organisers reserve the right to shorten the event for safety or other reasons.**

Good skills

Heather Pugh-Williams
Any queries, including advice to beginners, to: Chch 3857-639 or **heathers_p@xtra.co.nz**

Each team member is to fill in and sign. Designated team member to hand form in at registration on Saturday 16th June 2007.

Neither Peninsula and Plains Orienteers nor the landowners accept liability for any accident or injury to participants during the event. Competitors agree to abide by the rules as set out below and compete at their own risk.

Name	signature	date

_____	_____	_____

Emergency Contact

Your name and Vehicle Registration Number (parked at this event)	**Emergency Contact (not a competitor) Name, Address, Phone No.**	**Allergies or Medical Condition**

NOTE:

1. A parent or guardian must sign the indemnity form on behalf of a competitor under the age of 18.
2. Supply the name, address and telephone number of a person to contact in the event of an emergency. This person must not be a competitor in the event.
3. Supply details of any medical conditions or allergies that might be of assistance to First Aid staff in the event of an accident or emergency.

B**ASIC INFORMATION**

Rules, in brief

- Use rogaine event map and compass only. GPS not allowed.
- Travel only on foot.
- Your team may visit any number of controls and in any order.
- Team members to stay within verbal contact of each other at all times. **All members** must approach within **20 metres** of each checkpoint. (Your fellow competitors will be watching)
- If a control is missing, be able to describe the local setting.
- **If a competitor wishes to withdraw, the entire team must return to START/FINISH and notify organisers. (Team retains current points score.) Teams of one are not permitted.**
- 12 hour event finishes at 9.00 pm; 6 hour event finishes at 4.00 pm. (or as specified at start).
- When your team finishes, **all** members **must** report at desk and download the NAV TAGS.

Procedure at each control

- Each control comprises an orange/white flag, coded punch & control number.
- Insert the NAV PUNCH IN YOUR NAV TAG.
  (There will be a test NAV TAG and PUNCH at the **Start**.)
- Both team tags must be punched at EVERY control.

Points value, penalty points, protest.

- ***Points 10-19 are worth 10 points, points 20-29 are worth 20, 30-39=30 ,etc.***
- ***10 points penalty for each minute late. 30 minutes late - all points lost***
- ***Protests to organisers by 4:35 pm (6 hour); 9.35 pm (12 hour)***

Environmental and farm care

Farm courtesy

- Keep clear of buildings, machinery
- Gates to be left as found - usually closed. If your team opens a gate then your team closes it.
- Cross fences with care - through wires (some will be electric), cross at a post. Please climb over gates at the hinged end. No crossing deer fences – and you are almost certainly going wrong if you do.
- Don't crowd stock, or trample crops, young trees or new grass
- Out of bounds means OUT OF BOUNDS, but PLEASE NOTE that the event access road that runs through an Out-of-Bounds area can be used.
- No **rubbish**, no dogs, no firearms
- Report any damage, distress to stock, etc. to event organisers
- No smoking
- All Human Waste must be buried.

NavLight Punch and Tag system.

We are using the NavLight electronic punching system. Each team will be given two "Tags" which can be worn like a wristwatch.

Before the start you must have your TAGs activated by inserting the Start Punch. To do this you must hand in your intended black and white route plan map. You will then be allowed to activate your TAG.

At each checkpoint the Tags must be inserted in the "Punch" to record your visit. When punching is completed (about 1 second) a red light flashes. If you don't see a light flash it is ok to repeat the punching. After repeated attempts and you still haven't seen any red lights you should record the three letter code on the inside of the punch. There will not be any Intentions sheets to fill in. Both team tags must be punched at EVERY control.

There will be a test TAG SYSTEM at registration. Please take time to become familiar with the punching and the small flashing light.

At the finish you must insert the finishing punch and have your TAGs removed to have your controls and times recorded. Your Tag is valuable so please don't lose it.

Note that with the NavLight system you have to remember which controls you have visited. It could be possible to become confused and visit the same control twice.

Please make sure that when the TAG is attached to your wrist it is not too tight, especially as your wrist is likely to swell during the event. We recommend two-finger spacing under the strap.

On the course it is vital that you do not tamper or play with the punches

A little about the map

- ***The terrain is mainly open rough farm land. It has patches of matagouri but most is reasonably open. If you encounter very thick patches backtrack and find a more open route.***
- ***North is magnetic north.***
- ***Elevation ranges from a low of 400m to the highest control at 890m.***
- ***WARNING. There are many new farm roads, ponds and fences that are not shown on the map. It is easy to become confused. Navigate using only features that do not change. Hills, Streams etc..***

Heights of Winter Rogaine
Safety Sheet

Safety is a priority during this event. However the organisers cannot guarantee your safety and you participate at your own risk. Your responsibilities include:

- carrying all compulsory protective clothing and other safety equipment.
- staying together as a team at all times, and providing mutual support.
- helping any other team you find in difficulties.

Hazards to be aware of are:

- **Hypothermia.** Wind, water and cold temperatures can lead to exposure or hypothermia. Early symptoms are subtle (clumsiness, lethargy, slurred speech). Be prepared to seek shelter or to call it a day if conditions are severe, or if any of your team is becoming exhausted. In severe weather, keep off high, exposed ridges.
- **Streams**. Do not cross streams if they are heavily swollen.
- **Cliffs and slippery rocks**. There are cliffs and large outcrops throughout the event area. Please be very cautious around steep faces and rock bluffs throughout the course, especially after dark.
- **Fog/low cloud**. If in fog, orientate the map and yourself with a compass. If in doubt, don't climb into cloud, and descend out of it.
- **Rough ground,** such as steep banks, rock outcrops, incised creeks, slippery grass slopes, and hidden obstacles such as logs, rocks, loose fencing wire.
- **Fences**: Assume electric fences are ON. Insulate yourself with a plastic sheet, rainwear, etc.
- **Matagouri**: Full body cover is advisable. If you enter thick scrub it is likely there is an easier route, backtrack and go around.
- **Road traffic**: You are unlikely to make much use of roads but where you do – face oncoming traffic, keep to the extreme verge, wear reflective clothing after dusk.

In the event of serious injury or exhaustion, make injured person warm and comfortable; arrange, if possible, to leave someone with the person; note your exact location on the map; seek help via nearest road or farmhouse. Emergency signal: repeated short blasts on whistle. Repeat if you hear one long blast.

It is also recommended that each team carry a cellphone. While there is no coverage in the valleys; there is on the higher tops. The emergency number to ring will be 03 314 4169. This number will also be listed on the event map.

If you become totally disorientated, travel down slope to sheltered ground. Be very careful of steep cliffs. If you become totally lost try and descend and head NORTH.

IT'S MID WINTER. WRAP UP IN CASE OF COLD AND WET WEATHER
