The 2003 Hopeful Rogaine "The Sequel"

Sunday 4 May 2003 (6 and 3 hour options – Teams or Solo)

What is a Rogaine?

A Rogaine is a cross-country navigational and strategy race on foot, designed for people of all abilities. Each participant is given a map with about 40 - 50 circles marked on it showing where "checkpoints" are located. You may visit as many or as few checkpoints as you wish, in any order and by any route, within your course time limit. Visits to checkpoints are recorded on a score punch card.

Some experience with a map and compass is helpful. Much of the pleasure and challenge of a Rogaine is the strategy of planning an optimum route to suit your team's ability.

Scoring points depends on the number of checkpoints visited. Each checkpoint is worth a number of points depending on distance and difficulty. There are stiff penalties for returning after the time deadline with 10-point deductions for every minute late.

Clothing & Equipment for both Courses

We recommend that every competitor carries at least the following minimum clothing and equipment:

- Waterproof parka
- Gloves & Hat (polypropylene or wool)
- Upper and lower body clothing (polypropylene or wool)
- Basic First aid
- Whistle
- Adequate food and water for the event

Event Information

Location

Allow 30 minutes travel from Blenheim to the event centre. Orienteering signs will be placed at key locations for directions. Final travel details will be sent to the team contact closer to the event.

Terrain

Undulating farmland, relatively clean with tracks and some manuka. Hazards include electric fences (which will be easy to cross) and under-runners.

Map

Pre marked 1:25 000 with 20 m contours
