What is a Rogaine? A rogaine is a challenge of your physical endurance and route choice skills. You visit (on foot) as many control points as you can in a given time. The points which you may visit are marked by circles, and are all on prominent features. The control points are worth different points amounts. You lose points if you return over-time. The team with the highest score at the end of the allocated time is the winner. Rogaines are usually held in scenic, bush or rural areas, although urban "metro" rogaines are also held.
