The 2010 Marlborough 3 Hour Rogaine

-Springtime in the Park -

Saturday 11 th September

Event Information

There will be two options for the 3 hour event;

Course One; A 3 hour rogaine on the Wither Hills Farm Park.

Course Two; An orange level Orienteering course on the Lower Farm Park, then the balance of the remaining time on the Rogaine course.

A **Topo** map (scale 1:25,000) encompassing farmland, undulating with moderate-steep climbs/descents. Relatively clean with tracks (not all marked), some scrubby areas and tree plantations. Defined ridges and spurs, lots of gullies and water courses.

Hazards include erosion gullies, under-runners, slippery slopes, electric fences, large soft cow pats and over protective lambing ewes.

Elevation ranging between 5 and 500 metres.

You must confirm in your entry form which courses you wish to participate in.

Time limit is 3 hours. You must be back at the event centre within the time limit otherwise a 10-point deduction for every minute, or part thereof, penalty will be incurred.

Please respect the landowner's property and privacy. Their support and cooperation for permitting access to the Wither Hills Farm Park is very generous. Be aware of stock and do not spook them. We do not in any way wish to jeopardise the fantastic relationship that we have established with the Marlborough District Council and the WHFP manager over the past several years.

We have a positive reputation with the landowner and the community which we wish to continue.

What is a Rogaine?

A Rogaine is a cross-country navigational and strategy race on foot, designed for people of all abilities. Each participant is given a map with about 30 - 40 circles marked on it showing where "checkpoints" are located. You may visit as many or as few checkpoints as you wish, in any order and by any route, within your course time limit. Visits to checkpoints are recorded on a score punch card.

Some experience with a map and compass is helpful. Much of the pleasure and challenge of a Rogaine is the strategy of planning an optimum route to suit your own or your team's ability.

Scoring points depends on the number of checkpoints visited. Each checkpoint is worth a number of points depending on distance and difficulty. There are stiff penalties for returning after the time deadline with 10-point deductions for every minute late.

Detailed rules exist, but basically:

You must travel together, within 50 metres of one another at all times. A team shall demonstrate compliance with this requirement to any official or other team on request.

All team members must visit the checkpoints and shall simultaneously approach to within 20 metres, and within sight, of each checkpoint for which points are claimed.

You must respect the landowner's property. Cross fences at posts or climb through the wire. Leave the gates as you find them. Do not assume the following group will close the gate!!

You must be responsible for your own wellbeing by having suitable food, water, clothing and equipment with you. Competitors shall not discard any litter of any form.

Plan your course well. Rogaining is as much about careful route choice and navigation as it is about physical endurance

Note: Neither the organizers nor the landowners accept liability for any accident or injury to participants during the event. The 'Team Contact' on the entry form must ensure all team members are aware that they participate at their own risk.
