WHAT IS ROGAINING?

A rogaine is a cross-country navigation event on foot, using a map and compass. This event will take you over a mix of challenging farmed and forested hill country and downland.

Each team (comprising 2 to 5 people) is given a standard topographical map with about 60 checkpoints marked on it. A clue is provided for each checkpoint, e.g. “A saddle, N side”. Teams collect points by visiting as many checkpoints as possible over the duration of the rogaine. Late finishers lose points. The team with most points wins.

As a team you choose your own route and distance within the mapped area. You decide which checkpoints to visit and in which order. You can be as competitive or as social as you choose. A team can go out ‘on course’ for the full time, or just a few hours. Water may be provided at one or more locations on the course. If they wish, teams can take a break at the hash house where hot food and drink is available from late afternoon. There’s an evening meal after the event too.

Plan your course well. Rogaining is as much about careful route choice and navigation as it is about physical endurance. For fit, first-time people, plan on about 2 to 2.5 kms per hour average over the whole event time. If you find you travel faster or slower adjust your course as you go.
