Silver Peaks Rogaine 2008

The Silver Peaks Rogaine 2008 will be held on Saturday 18th October (postponed from 27th September) in the Silver Peaks area about 25 km northwest of Dunedin. There will be 12 hour and 6 hour options for teams of two to five members. We shall be based at Waitati (20 km north of Dunedin) for registration and route planning (12 hour event) and for post event refreshments (all participants). The start/finish area and registration/planning for the 6 hour event will be within Silver Peaks Forest.

Much of the area is pine plantation or dense native bush with some areas of beech forest. There are numerous, well-defined, tramping tracks as well as forest roads through the area, which provide good access throughout. In the southeast and west/northwest areas there is open tussock country with some regenerating native scrub - dracophyllum, hebe and manuka. In the latter region there are several, prominent rock-outcrops and cliffs and some notable caves. This is steep ridge and spur country with well defined valley systems. The altitude range is from 150 to 780 m. Careful planning and route-choice will help to minimise the climbing and ensure an enjoyable day out!

Download an entry form and send it with payment to

Silver Peaks Rogaine
Bob Cunninghame,
210 Signal Hill Road, Opoho,
DUNEDIN 9010.

Entries will be confirmed by email or post to the team contact as they are received.

Instructions to competitors such as travel instructions to the event, start/finish times, map distribution times, map scale, indemnity form and other information will be mailed to each team contact by Monday 13th Oct and will also be available on the NZRA website.

Contact for general queries before Monday 13th October is

Bob Cunninghame,
