A **rogaine** is a cross-country, navigation event. Teams are given a map with about 30 checkpoints marked on it. The checkpoints have differing points values. They are marked with flags and will be easily accessible on horseback. Teams collect points by visiting as many check points as possible, in any order, over the time available. The team with most points wins. You can be as competitive or as social as you choose. A team can go out 'on course' for the full time set or less.
