Big Trig 2014

3, 6 or 9 hours

Saturday 29 November 2014

In 1991 OHV ran NZ's first rogaine. We worked up to 24hr rogaine classics, and we invented the popular 3hr close to home events.

"The Big Trig" is the name we've adopted for our annual middle-sized rogaine. Big enough to challenge your endurance and navigation. But not so big as to wreck you for the week after.

The 2014 event in the Akatarawas will be 3, 6 or 9 hours long. It starts in a family-friendly area ideal for beginners or sprinters. But to fully appreciate the wonderful bush we have newly explored, you'll want to choose one of the longer periods. After all the "R" in rogaine stands for Rugged, and the "E" stands for Endurance.

Fieldwork is being led by Gordon Balfour, who has planned many rogaines over the years. Mapping from the OHV 1:20,000/10m geo-referenced "super-topo" mapping honed over 15 years. Organisation by International Rogaining-recognised pioneer Michael Wood.

The base will be on the Kapiti side of the Aka's. Precise location TBA but about an hour from downtown Wellington.

We welcome visitors: big discounts for faraway entrants. Stay on for the Sunday – we've got heaps of previous mini-rogaine maps on the web, including the City Safari prologue on the Wgtn Waterfront! Online entries open late September, close 19 November. More details at

ROGAINING: "a sport of long distance cross-country navigation", in which teams of two to five people visit as many checkpoints as they wish in a set time period. "Long" is anything up to 24hrs, but the skills can be practised over any period, such as one hour. Learn more at these rogaine pages www.mapsport.co.nz/wellyrog (Wgtn) or www.mapsport.co.nz/rog/rogaine.html (NZOF)
