2015 AGM
IRF Representative Report

The function of the New Zealand IRF reps is to debate and vote on proposals that arise during the year from member rogaining countries. Our two representatives currently are Nick Collins and Emma de Lacey.

This is a brief summary of the issues we have had input to in 2014/15:

- IRF Financing Proposal (agreed unanimously in June 2014):
  - most of the levy is on a per individual participant in championship events ($4 per person per WRC, $2 per person per regional championship e.g. ARC, $0.50 per person per NZRC)
  - there is also a one off annual membership fee depending on the number of active rogainers in the member country ($50/ $100/ $200). We estimate NZ has less than 1000 individuals participating in one or more rogaines during the year so we pay the lowest rate).
- Voting on 2017 WRC hosting country: Latvia was selected over the Ukraine, in large part due to the uncertain political/military situation in the Ukraine.
- IRF Executive positions: Rod Phillips asked to step down as Secretary but agreed to stay on until a replacement can be found; Jan Tojar was nominated and selected as World Championship Manager.
- Spain applied to become a member and was unanimously accepted. The current IRF Member Countries are:
  1. Czech Republic
  2. New Zealand
  3. Estonia
  4. Australia
  5. USA
  6. The Ukraine
  7. Latvia
  8. Russia
  9. Spain
- The Geoduck Award for services to regaining: given to Efim Schtempler from the Ukraine for his mapping work in Migovo for ERC2014.
- Various minor issued were discussed. Here are the ones I can remember:
  - The value of intentions sheets: These were taken to mean something teams filled in at each check point before moving onto the next one. It was agreed that they are now obsolete given electronic recording systems.
  - Grid lines on maps: it was generally agreed that magnetic north lines and a scale bar should be printed on competition maps.
  - Including Adventure Racing policy under the IRF: rejected.
  - Advertising the map size in advance of competitions: in favour.
- Rules Amendment: Rule D3 was amended to say that, “Vetters must have a track record of championship rogaine course setting and/or vetting and must have done so for at least two championships in the last five years.”
- The 2015 Strategic Plan was accepted earlier this month.

Finally, on behalf of the NZRA and the rogaining community, I would like to thank Nick Collins for being one of the two IRF reps for several years. Keeping up with the email discussions can be quite time consuming, not to say confusing. Nick is heavily involved in the Taranaki rogaining scene, especially the schools events, but feels he is out of touch with the international scene and would like to step down.

Emma de Lacey 15/02/15
