Minutes NZRA General Meeting, Monday 28 May 2012

Present: Pete Squires, Bill Kennedy, Douglas Woods, Grant Hunter, Emma de Lacey, Trevor Merrifield. **Apologies:** nil

NZ Champs 2012

- Received progress report from Bob Cunninghame, chief organiser, Otago
- Wish to get some preliminary event info on www.rogaine.org.nz soon to build awareness and interest. Bill, Tim and Bob to get together on this.
- Bill and Trevor to handle entries and fees as per previous years.
- While the initiative lies with Bob we suggested (1) an indicative entry fee of $90 (which aligns with recent 24 hour events) but depending on the 'local' 'budget), and (2) an associated short event of 8 or 6 hours.

NZ Champs - post 2012

- Agree we give full priority to holding a 24 hour event each year in NZ
- Recent joint meeting NZOF/NZRA advocated for a 'strategic' (and NZRA/NZOF collaborative) approach, seeking to allocate tentative venues and organising groups for up to 5 years ahead (separate minutes available). This meeting supports this approach.
- A short-term priority is to set an event venue and organiser for 2013. This should be in the North Island. Recommended that Nick and Stuart Payne (NZOF) collaborate on dialogue with potentially suitable and available NI orienteering clubs, with the aim of having moderately firm options to table for the October NZRA national meeting.
- Support the concept in principle that a suitably qualified '3rd party' e.g. commercial event organiser might organise a championship event on behalf of NZRA/NZOF.
- Support the principle of a shorter event (e.g. 8 or 6 hour) being held in conjunction with each NZ champs.

Motion: That NZRA offer qualified and suitable non-association groups capable of organising a 24 hour event to NZ champs standards, (e.g. orienteering clubs), a financial incentive including a seed fund of $1000, plus underwriting event costs. (Peter Squires/Emma de Lacey, carried)

National rogaine series

Progress has been limited, after an initial flurry of ideas. Some work is needed on clarifying the goals of the series, as different regions may have different perspectives. Also to propose a time duration - does the series align to a calendar year or some other (seasonal) interval? Also number of events and which ones? Then we need an event infrastructure – integrated database, rules, result management etc. Douglas to get the three-person organisational panel together to formulate a proposal/options for the full committee. Aim to have a national scale meeting on this in October (see 'national meeting' below).

National meeting of NZRA

At the first truly national meeting in Wellington on November 2011 we agreed to hold such a meeting at least annually. Since the driving national issue has since distilled down to establishing a national rogaine series, as well as (with NZOF) ensuring the annual delivery of a 24 hour NZ rogaine champs, we agreed that the national meeting for 2012 should focus on these two matters. Timing to be October, and location probably Christchurch (ease of access to NZOF General Manager).

Australasian Championships
We are talking to the Australian Rogaining Assn. about forming a regional **Australasian** Championships.

IRF vote for World champs in 2015
Recent voting by IRF delegates supported a WRC event in 1915, thus adding to the cause for transitioning to annual (rather than two-yearly) world champs. Many countries (including Australia and NZ) consider this is not in the overall interests of rogaining at this stage.

Following a cue from IRF exec, our meeting formulated a motion along the lines of... "New Zealand rogaining supports a re-vote on whether or not a WRC should be held in 2015 ... " (Emma de Lacey/Douglas Woods, carried unanimously).

On further briefing by Nick Collins, NZRA IRF rep (after the meeting), the intent of this was modified by the NZRA secretary as follows, which still lay within the scope and intent of the original motion:

(1) Ask one of our NZ reps on IRF to second a motion (from ARA) that a revote be established, and
(2) That both NZ reps on IRF vote against a WRC being staged in 2015.

Heights of Winter 30 June 2012

- Organisation this year (mainly course planning) is involving a larger team of recruits, aiming to provide an organisational talent pool for the future
- All check points in place in the field and on the map, and vetting is proceeding OK
- Using a woolshed for rego and start/finish base, but uncertain about having the meal here or at the local hall. Pete to discuss with Dave.
- Grant negotiating catering with local school; portaloos; first aid/SAR support and traffic management plan/signs
- Grant to ask Chrys Horn if she is interested/available to helping with Navlight

Requirements for public liability insurance
Grant pointed out that our insurer for events organised by NZRA expects us to have for each event: a disclaimer for participants; any required council resource consents, concessions, access permissions etc; written health and safety instructions; and clear instructions to volunteers/subcontractors.

Future events – Canterbury
Support a 7-hour Office Hours event again this summer, but the usual pre-Christmas timing will clash with NZ Champs. Suggest early/mid February (later, the event calendar becomes very cluttered). Grant to follow up with a venue prospect.

Next meeting
Monday 30 July or August 6 2012

Meeting ended. GG Hunter
