Charwell Challenge

Written Briefing Notes

6&3hour and 90min Rogaines

Sunday 13 May 2018

Team No.

Dear Team,

Thank you for your entry. Please get your team number from the website, **enter it in the box here, bring this with you**, and remember it.

Please ensure all team members are familiar with all information below. It is also accessible at http://www.rogaine.org.nz. We hope you enjoy Charwell Challenge.

Getting to the event

REGISTRATION and START/FINISH is near Surrey Downs, 2891 Inland Kaikoura Rd.
Coming via Waiau, 28 km beyond Mt Lyford, 1 km over Charwell River bridge, turning acute right.
Coming via Kaikoura, 29km beyond the Inland Rd turnoff, 5 km after the Green Burn bridge, left at the 55km bend sign.

If you attended his event in 2016, the access point off Inland Road this year is 1km further W.

Allow 3 hrs from Christchurch via Waiau. Expect road works/speed restrictions both ways. You're welcome to camp overnight at the venue (Portaloo and water only).

Registration

At rego, get your team is together and have your completed **Indemnity and Emergency Contact form** (included below). Your team will be given:

- an event map (A4, 1:33,333 scale topo map (1:20,000 for 90 min) with Magnetic N lines), a checkpoint description sheet, and an A4 zip lock plastic bag, per team member.
- a single B&W A4 version of the map for your '**flight plan'**. Enter your team number and plot your intended route on this map, including direction of travel, and return to rego before the start. (Feel free to modify your route as you go, but the flight plan gives us an idea of your likely whereabouts.)
- A page of 'course notes'
- (**6/3hr**): Navlight tags x 2 per team, (**90min**): one waterproof score card

Start

- All team members to attend the verbal briefing, 15 mins before the start.
- All teams hand in their flight plan before the event starts. (To be decided if 90 min teams lodge flight plan)
- 6/3hr: The two wearing a wrist-tag register their wrist-tags on one of the BRIEF Punches as they enter the briefing area.
- All teams **must** hand in their flight plan before the event starts.

Finish line

- **6/3hr**: register your wrist-tag on a FINISH punch, assemble your whole team at the 'desk' to have your wrist-tags removed by an organiser and scored. (don't remove your own wrist-tags). Receive a printout of your score and times.
- **90min**: with all your team members finished and assembled, hand over your score sheet. The finisher will enter your finish time, noting points deducted for a late finish. They will manually total your score.

If you disagree with scores, or the location of a check point, see the event organiser. Scores available ASAP on the day and will be published on http://www.rogaine.org.nz.

Event closes exactly when 6 or 3 hrs or 90mins is up. Late back & you'll be penalised 10 points per min, and if you are over 30 minutes late you lose all your points. (We don't want you late, either.)

Event chronology

	6hr	3hr	1.5hr**
REGISTRATION OPENS Route planning & prep	8.30 am	10.30am	11.30am
Briefing	9.45am	11.45am	12.15pm
START	10am	12 noon	12.30pm
FINISH	4.00pm	3.00pm	2.00pm
RESULTS/Prizes	ASAP after closure – will run 90 min and 3hr together		

** 30 minutes earlier than notified on the earlier Information Sheet.

Post-event snack: Scottish-style bap with venison and salad. Kaikoura High School will offer cake stall and drinks, so bring some change. Complementary tea, coffee, milo and Barkers

What to bring

Essential clothing and safety equipment is listed under 'Safety Sheet'. You will also need

- pens, pencils and highlighters, pins and string, and ruler, for planning / measuring your route before you start
- 90 min teams bring lead pencils in case scoring paper is wet ☺)
- folding outdoor seats, and maybe a folding camp table for course planning
- Compass only – no other navigation devices such as altimeters or GPS.

Food and drink

Carry enough for a day in the field, we suggest 2 litres each. A water refill drop is marked on the map between 46 and 77, and you can fill up at the Start/Finish. (Some streams may be OK.)

Event procedure

Spending up to an hour planning your route makes the day more enjoyable and rewarding.

Plan your route to challenge your map reading and navigation skills but within safe limits set by terrain and weather, and your experience and fitness. If you lack confidence in finding its way in moderate, untracked tramping terrain, stick to the more accessible check points.

If your team are relative beginners and/or you are doing the 3-hour, we suggest you concentrate on the northern half of the map, for which access back to the Start/Finish remains reasonably direct

Your team may visit any number of check points and in any order. Your aim is maximising your 'score'. Checkpoints have a unique number - the score value is the first digit followed by a zero, e.g., checkpoint 23 has a score of 20 points. Checkpoints numbered 100s are worth 100 points.

All teams start together. Concentrate on your own team plan, not getting distracted by others as they may have set a different route. Always keep aware of your team's location on the map.

Not all tracks and fences are marked on the map, and others are mapped that no longer exist. Tracks and fences are handy to guide navigation, but do not assume their detailed accuracy.

Team members always stay in verbal contact with each other, and all must visit each checkpoint.

At each check point…
There is a marker, tied to a tree or post etc, not 'hidden' and visible from at least 10m away depending on your approach.

- **6/3hr:** an orange/white orienteering flag, and Navlight punch. 'Punch' your wrist tag, holding it there until you see a red flashing light (takes up to 3 seconds). **If you see no flash, write down the 3-letter code (not number) visible inside the punch. Both wrist tags in a team must record a visit to a checkpoint.**
- **90 min:** a white plastic with fluoro tags with a 4-character code: Write down the code against the correct CP on your score sheet (don't share with other teams ☺)

Safety Sheet – Charwell Challenge
6 and 3 hour Rogaines - Saturday 19 March 2016

Cancellation
This event will be cancelled only if conditions are severe. The organisers may shorten the event by time or geography for safety or other reasons.

Compulsory clothes and equipment:

Per team member:	thermal top & trousers	thermal hat and gloves
	shower proof/windproof coat	survival sheet or pack liner
	whistle,	food, water bottle
	robust, well-fitting footwear with well-treaded soles	
Per team:	small first aid kit	at least one compass (but no GPS)
	watch	(90mins) pencil, biro, or fine marker
	torch (just in case)	

Your gear is your responsibility. There is no compulsory gear check but the organisers may check on a random or selective basis.

Depending on weather on the day, we **strongly recommend** you also carry: fully rainproof parka, 2nd layer thermal top, long gaiters, s'proof over trousers.

Communications

- Cell phone coverage is patchy and **confined to topographic high points**, and non-existent at the S./F. Call 03 319-7585 if you need event support and we'll relay a message to event HQ, or 111 for a true emergency
- There will a CB radio at the hut (between 46 and 77), Channel 4 can call the S/F.
- By all means carry a PLB if you have one

"Always be aware of your surroundings"

Within the framework set for this event, you are largely responsible for yourselves, including:

- meeting safety requirements given by event organisers in writing, on web site, or verbally,
- carrying compulsory protective clothing and other safety equipment,
- advising team member(s) of any medical conditions you have, your general level of fitness and other factors that may affect you during the event,
- staying together as a team at all times, and helping any other team in difficulties,
- depositing a 'flight plan' map showing your intended course before you start (not 90mins?),
- advising organisers and returning your score card if you withdraw from the event, or when

you finish. This is our safety check you are no longer on the course and **IS COMPULSORY,**

- being conscious of time and avoiding a late return – being late results in a hefty points penalty as well as raising safety concerns,
- being prepared to modify your plans to be more conservative if conditions dictate this,
- monitoring team and individual progress and fitness and modifying plans as required,
- looking out for hazards, such as:

1. **Hypothermia.** Wind, water and cold can lead to exposure or hypothermia (clumsiness, lethargy, slurred speech). Seek shelter or retreat if conditions are severe, or if any of your team is becoming exhausted. Keep off high, exposed ridges.
2. **Dehydration.** we suggest you carry at least 2 litres each
3. **Streams**. Do not cross streams if they are heavily swollen.
4. As in any natural/rural area, **cliffs, loose rocks, incised creeks, gullies, obstacles like loose fencing wire**, may be present throughout. THERE ARE MANY DERELICT FENCES WITH WIRES AT GROUND LEVEL IN THE SOUTHERN AREAS
5. **Fog/low cloud**. If in fog, orientate the map and yourself with a compass. "Work the farm tracks" If in doubt, don't climb into cloud.
6. **Hunters**: unlikely today, but be alert – if in doubt be visible and vocal.
7. **Electric fences**. Usually the top wire may be hot (insulators on the post). Treat electric fences as ON. Climb between non-live wires, or use a parka etc to insulate.
8. **Stock**. Generally not a problem, but be alert and avoid crowding any stock.
9. **Earthquake**. There are major faults nearby ☺. Keep aware of your surroundings. Rocks falling from above are likely your greatest danger. Open, low-angle ground sounds safest.

In the event of injury or exhaustion, make the injured person warm and comfortable; arrange, if possible, to leave someone with them; note your exact location on the map; seek help from other passing teams. Use your whistle to attract attention - give help to other teams if you hear a call.

There will be a certified basic first aider, not a paramedic, on call at this event. We expect to have a defibrillator at the S/F.

Farm and Environmental Care

Rogaining is an environmentally & socially friendly activity – please reinforce this ethic.

- Respect farm stock, fences and other facilities, and the right of landowners to operate their business, and lifestyle. ("Quiet Enjoyment")
- Out-of-bounds means just that.
- Do not crowd or corner stock, or otherwise disturb stock.
- No crossing into deer paddocks unless by opened/unlocked gate (deer fences 2m high)
- **LEAVE GATES AS YOU FIND THEM.** You open gate, you close it - **PROPERLY**.
- Cross fences at a strainer post, or climb through. Do not spring off the top wire.
- Report any damage or distress to stock to the organizers.
- No rubbish
- Bury toilet waste - better still, use the toilets at the event centre.
- Keep streams clean
- No dogs, thank you – no, not even in your car

This event is wholly on private land and we gratefully thank the families on Surrey Downs, Flax Hills and Waikene. Please ensure the trust they have placed in us is justified.

Thank you, Grant Hunter, for NZ Rogaining Association and Kaikoura High School

TEAM NUMBER: _____

Charwell Challenge 2018, 13 May 2018

Indemnity and Emergency Contact

Teams will not be registered until the following information has been completed and presented at the administration desk.

Indemnity (signed by all members)
We acknowledge that the Event Organisers, NZ Rogaining Association, Kaikoura High School and the landowners accept no liability for any loss, damage or injury to ourselves (including vehicles at the venue) resulting from our participation. We understand that this event is organised and staffed by volunteers. We enter at our own risk and acknowledge that there may be risks associated with Rogaining. We will comply with safety requirements set out in organiser's briefings, including those passed on from landowners, and agree to abide by the New Zealand Rogaining Association Code of Conduct as on the website, www.rogaine.org.nz.

There will be a certified first aider, not a paramedic, on call at this event.

Print Name	Signature[1]	Date	~~Date of birth~~

Emergency Contact for each member of your team:

Your Name and Car Registration Number[2]	Emergency Contact (not a competitor) Name, Address, Phone No.	Allergies or Medical Condition[3] (optional)

NOTES:

1. A parent or guardian must sign the indemnity form on behalf of a competitor under the age of 18.
2. Rego number of the car you travelled in and parked at the event centre.

3. Optional - Medical conditions / allergies that might help First Aid staff in the event of an accident or emergency (otherwise, advise team mates).
