Orienteering Hutt Valley presents...

The Big Trig 2016

4 or 8hr Rogaine

Saturday 26 November 2016

In 1991 OHV ran NZ's first rogaine. We worked up to 24hr rogaine classics, and we invented the popular 3hr close to home events.

"The Big Trig" is the name we've adopted for our annual middle-sized rogaine. Big enough to challenge your endurance and navigation. But not so big as to wreck you for the week after.

The 2016 event in Rimutaka Forest Park will be 4 or 8 hours long. The last one there was only 6 so we'll give you some new territory! There's an easy corridor through to the Orongorongo River. On either side the hills rise steeply, to Mt McKerrow in the north (700m) and Baker in the south, 400. (The "R" in rogaine stands for Rugged!) But they're covered in beautiful native bush, now inhabited by dozens of kiwis!.

Keri Devine and Rob Smith, just back from running the Pyrenees, are planning the course. Mapping is from OHV's 1500sq.km of seamless rogaine mapping. Admin by pioneer Michael Wood.

The base is the beautiful Catchpool Stream, which offers wonderful picnicking for families and also camping in a bush setting. Its 10km down the Coast Road from Wainuiomata, just 40 minutes from downtown Wellington.

We welcome visitors: big discounts for faraway entrants. Stay on for the Sunday – we've got heaps of previous mini-rogaine maps on the web, including a City Safari prologue on the Wellington Waterfront! Online entries are open, close 16 November. More details at

ROGAINING: "a sport of long distance cross-country navigation", in which teams of two to five people visit as many checkpoints as they wish in a set time period. "Long" is anything up to 24hrs, but the skills can be practised over any period, such as one hour. Learn more at these rogaine pages:
www.mapsport.co.nz/wellyrog (Wellington) or www.orienteering.org.nz (New Zealand)
