Bottle Lake Equestrian Rogaine

3 hour Rogaine
Sunday 4th August 2013
plus 2-hour foot rogaine

Report

One hundred entered, in support of Darfield High School's rural college, with 88 participating on the day. This event was the second-ever rogaine for teams on horses held in New Zealand.

Five teams managed to score all 34 controls, the fastest in 2 hours, 15 minutes. However, in the 2-hour foot rogaine that followed in the late afternoon, Robert Jarvis, with the advantage of being able to use dedicated run tracks and even cut through forest sections (where they are still runnable) scored the lot in two hours. A great effort from Robert, who timed his finish to perfection.

The horse rogaine this time was limited to teams with a maximum size of four, to make it less unwieldy for teams on single-file tracks. Dedicated horse trails in the forest were shown on the map in pink-purple and the run/MTB trails were out-of-bounds. And as with the first horse rogaine in 2012, teams were started over a twenty minute period in waves at five minute intervals.

Results

Scores are net scores after time penalties (which only applied in a couple of cases). Where teams have the same score they are ranked in order of time on course. But we hope the emphasis was first on having fun and competition second.

X = mixed, W = women, J = junior, Fam = family.
